

**Committee E: Embankment Dams:**

**Workshop on Update of Concrete Face Rockfill Bulletin Number 141**

**Sunday 11 June from 08h00 to 10h00**

The update of the empirical based 2015 bulletin will be workshopped regarding numerical three dimensional analyses including seismic aspects and latest design details for high CFRDams also with alluvial foundations.

Presenters: Alberto Marulanda

Camilo Marulanda.

**Committee E: Embankment Dams**

**Workshop on Update of Bulletin 55**

**Geotextiles as Filters and transitions in fill dams**

**Sunday 11 June from 13:30 to 15h30.**

The state of the art of geotextiles and its applications in earthfill and rockfill embankment dams will be workshopped with filtration, design criteria and durability. Participants are welcome to bring along case studies of projects.

Presenters:

Dave Paul

Jean-Jacque Fry

Danie Badenhorst.
