

Technical Excursion 4: Flood Protection Gothenburg

Welcome to the technical excursion visiting and discussing the flood protection and mitigation measures implemented in Gothenburg to have a resilient city to the effects of climate change. We will be traveling by boat through Gothenburg along Göta Älv River (a large river on the West coast of Sweden) where we will look at the different flood protection structures and measures implemented along the river and the river's outlet to the North Sea. On the boat, presentations will be held by the city of Gothenburg, the Consultants (Sweco) and the dam owners (Vattenfall). There will also be a Panel Discussion held with these three stakeholders to address the different challenges and practical advice they can provide for others starting out similar projects.

The boat will leave from Packhuskajen, you can see the location here: <https://goo.gl/maps/wb34ZvNAsXVvJEhjZ>
If you would prefer to walk together, we will meet up outside the main entrance to the Swedish Congress and Convention Center at 13.00. If you rather take the public transport, the nearest stop is Stenpiren, you will find the easiest travel path here: <https://www.vasttrafik.se/en/>

Coordinating from SwedCOLD and the conference will be Non Okumura, non.okumura@sweco.se, +46 (0)76 136 17 43

Time schedule for the day

13:00	Leave Swedish Congress and Convention center (for those of you who would like to go to the pier together)
13.30	Meet at the pier.
14.00	Board boat.
14.30	Presentations by the city of Gothenburg, Sweco and Vattenfall.
15.00	Fika
15.30	Panel Discussion
16:00	Q&A
16.40	End of tour, at the pier where we started

Information regarding directions from Swedish Congress and Convention center

For those of you who would like to go to the pier from the conference venue together, we will meet at the main entrance of the conference center (not the main entrance of the hotel). The meeting location is shown with a red cross in the photo below.

Swedish Congress and
Convention Center

*The main entrance of the
conference center*

Tram station 'Göteborg Korsvägen'

There is a tram station right outside of the conference venue called 'Göteborg Korsvägen', also marked in the map above. You can take both tram 2 and 5 from this stop.

If you take tram 5:

Please get off at station 'Göteborg Brunnsparken'. The pier (meeting location) is approx. an 8 min walk from there, see the route (in yellow) in the map below.

If you take tram 2:

Please get off at station 'Göteborg Domkyrkan'. The pier (meeting location) is approx. a 7 min walk from there, see the route (in red) in the map below.
